

DON'T SOUR YOUR SWEETS WITH AMERICAN CRYSTAL SUGAR

American Crystal Sugar management has blocked 1,300 workers from their jobs for more than a year, denying their families incomes and health care benefits.

These skilled and experienced workers helped American Crystal Sugar earn record profits, and CEO Dave Berg was rewarded for the company's success with a 23% increase in compensation that now totals \$2.4 million annually.

There's nothing sweet about American Crystal Sugar—don't use it in your sweets until American Crystal Sugar puts the 1,300 workers back on the job and bargains a fair contract.
